Anti Mouse Trpm7 Polyclonal Antibody

This antibody was prepared by Dr. Yasuo Mori, Kyoto University.

Code No.	KO464
Target	Trpm7
Category	TRP channel
Gene ID	58800
Primary Source	MGI:1929996
Synonyms	CHAK; CHAK1; Ltpr7; Ltprc7; TRP-PLIK; 2310022G15Rik; 4833414K03Rik; 5033407O22Rik; Trpm7
Type	Polyclonal Antibody
Immunogen	Partial peptide of Mouse Trpm7 C-terminal region

Raised in	Rabbit
Myeloma	-
Clone number	-
Purification	Antigen Affinity
Source	Rabbit Serum
Isotype	-
Cross Reactivity	Human
Label	Unlabeled
Concentration	0.25 mg/mL
Contents (Volume)	25 µg (100 µL/vial)
Buffer	PBS [containing 2% Block Ace as a stabilizer, 0.1% Proclin as a bacteriostat]
Storage	Store below -20°C. Once thawed, store at 4°C. Repeated freeze-thaw cycles should be avoided.

Application ELISA

ELISA	WB	IHC	ICC
1.0	Not tested	Not tested	Not tested
IP	FCM	IF	Neutralization
Not tested	Not tested	Not tested	Not tested

(µg/mL)

UniPlot Summary

//Function: Essential ion channel and serine/threonine-protein kinase. Divalent cation channel permeable to calcium and magnesium. Has a central role in magnesium ion homeostasis and in the regulation of anoxic neuronal cell death. The kinase activity is essential for the channel function. May be involved in a fundamental process that adjusts plasma membrane divalent cation fluxes according to the metabolic state of the cell. Phosphorylates annexin A1 (ANXA1).

//Tissue specificity: Found to be expressed in brain and skeletal muscle, with stronger signals in kidney, heart, liver and spleen.

//Sequence similarities: In the C-terminal section; belongs to the protein kinase superfamily. Alpha-type protein kinase family. ALPK subfamily. In the N-terminal section; belongs to the transient receptor family. LTRpC subfamily. Contains 1 alpha-type protein kinase domain.
